Note

- LED light strip must be integrated prior to installation.
- *See back for more instructions*

Dry fit body into vent opening

Filler material (i.e wood, foam) may be added between back panel and the joist for additional support.

Ensure flange is flat to the wall.
Use screws to fasten as needed.

Mud and tape drywall compound to cover flange. Allow to dry.

Sand mud so surface transitions smoothly. Repeat steps 3, 4 as needed.

Paint walls, and all surfaces.
*can also be used with wallpaper
